Alan Pursell
family

Paul Pursell
family

In 1968 Pursell Manufacturing was founded by Bill and Richard Pursell (father & son) near Grants Pass, Oregon. From the start, their focus was on innovation, quality products, and superior customer service.

The Christmas Tree supply industry was revolutionized when Bill and Richard innovated a new process to mass produce high quality wooden Christmas Tree stands, which soon became the most popular method of standing trees in the American West. Pursell Manufacturing quickly became well known nationally as a reliable supplier of quality Christmas Tree supplies at a very competitive price.

Over 5 decades, that same dedication to innovation, quality, and service has been on display as we developed nail-on water bowls, tree preservative, flock, rebar stands and our own lines of netting. In 1999, Paul and Alan Pursell took on leadership roles and the company moved to Colorado. Jim Lightfoot came onboard a few years later, and our product line expanded rapidly. The acquisitions of TNI Netting in 2014 and Holiday Sales in 2018 expanded our presence in the Christmas Tree Lot Supply Industry and solidify our valuable long term relationships with both vendors and customers.

Recently we brought on 3 very capable leaders to carry on the legacy and culture of Pursell Manufacturing: Doug Martin as Supply Chain Manager, Kevin Torline as Sales Manager, Jesse Snyder as General Manager of PMC and Alexis Cardenas as GM of our Cellulose Division. Richard, Alan and Paul all continue to provide direction and resources to the company.

As we look at the current stability of our organization, our combined 6-acre, 75,000 square foot facilities, and the great friendships we have built with our customers in the many years since 1968, we are reminded of what hard work, dedication to innovation, quality products, and superior customer service can do.

Pursell Manufacturing takes great pride in what we produce. We put our name on many products, and we stand behind what we produce and distribute. This year we are well stocked on nearly 300 quality items for profitable Christmas Tree lots. We are ready to help you make your businesses more profitable.

We are very blessed. We offer thanks to all our associates and customers over the past five decades! We hope you continue to choose Pursell Manufacturing for all your Christmas Tree lot supplies in the years to come. — *The Pursell Family*

THE PURSELL ADVANTAGE

**CONTACT US FOR A
POSITIVE CHRISTMAS EXPERIENCE
888-487-8288**

PRICE ADVANTAGE

- In house manufacturing of most products
- Buy direct and save
- Upfront pricing, no hidden fees or surprises
- Simple and inexpensive flat rate freight pricing
- Volume discounts available
- Great pre-negotiated low freight pricing

RELATIONSHIP ADVANTAGE

- Over 50 years of family-owned industry experience
- We value long term partnerships with customers and vendors
- A trustworthy service team that cares about your business

CONVENIENCE ADVANTAGE

- Instant freight quotes
- Know your final delivered price
- Schedule convenient delivery windows
- We deliver so you dont have to fight traffic
- Ask about distributors in your area

PRODUCTS ADVANTAGE

- We design, manufacture and make most of our products in the USA
- Making our own products allows for quality control and lower prices
- We put our name on our products and stand behind them, Guaranteed!

FLAT RATE FREIGHT

ON ORDERS OVER \$3,500*

Orders over \$3,500 will be assessed a flat percentage of the gross invoice total, plus any *necessary accessorials (liftgates, etc.) Each order will be delivered to a single location. Less than \$3,500 orders will be invoiced with full freight charge per selected carrier. We will select the lowest cost carrier for you. If you wish to ship with a different carrier, please say so and we will charge you the difference. Our primary carriers are FedEx, Estes and Old Dominion Freight Lines along with others.

Zone 1: Freight will be a flat 3.5% of gross invoice, plus any accessorials such as a liftgate. (e.g. if your invoice totals \$3500, your freight charge will be \$122.50 <nearly all states except the states listed in zone 2 below>

Zone 2: Freight will be a flat 6.5% of gross invoice plus any accessorials such as a liftgate. (e.g. if your invoice totals \$3,500 your freight charge will be \$245) <CT, FL, MA, ME, NH, NY, RI, VT> (percentage rates above are based on fuel surcharges as of the time this catalog went to print and subject to change. See website for any updates)

TIRED OF HIDDEN SHIPPING FEES?

Instant, accurate and simple freight quotes at an inexpensive flat rate. No Hidden Shipping Fees for you to discover later. Our products are shipped from a single location and we disclose everything up front so you know your costs.

KNOW YOUR DELIVERED PRICE!!

Augie and Zach: our production, warehouse and fulfillment team leaders. Brian, Matt, Ryan, Jonah, Isaiah and Brandon worked hard on our manufacturing and assembly lines.

Production of Wood Stands, Preservative, and Netting.

Sad Broncos fans paying off bad Super Bowl bets.

Flock, Snow and Cellulose crew: Tito, Angel, Victor and Luis.

Pursell Manufacturing Environmental Impact Statement

We believe in the importance of taking care of our customers and making environmentally friendly decisions for our planet. We are continuously making improvements in our business practices that will make a positive impact, whether it is worldwide or in our local community. We primarily use sustainable raw materials that are renewable or biodegradable in nature and locally sourced as often as possible. We are familiar with the source materials that we use because we manufacture or closely oversee the production of the vast majority of items that we sell. We source materials from the USA whenever possible, not China.

- Renewable, repurposed and recovered flock materials.
- Locally sourced renewable and repurposed timber products from wildfire mitigation.
- We repurpose all of our timber leftovers, such as sawdust and firewood, often for needy families.
- Biodegradable and recyclable (level 4) netting yarn.
- We have sourced Certified Recycled or Repurposed plastic resins for several of our plastic products.
- We have actively chosen to discontinue the use of artificially ecofriendly plastics, that actually just break down more rapidly into tiny pieces known as microplastics, which enter the food chain and become incredibly damaging.
- We have had a longstanding practice of recycling or repurposing all of our cardboard and paper products.

Not only do we strive to do our part in taking care of the planet, but we also happily give back to our local community through donations and volunteer work with local schools, sports and other associations.

Pursell's Tree Preservative

AMERICA'S #1 SELLING BRAND

made in the
USA

- ❖ **Best money maker for tree lots**
- ❖ **Provides nutrients to keep tree fresh**
- ❖ **Highlights the importance of watering trees**
- ❖ **Helps prolong needle retention**
- ❖ **Scented with natural evergreen oils**

AVAILABLE IN 2oz and 8oz BOTTLES

**2 oz liquid concentrate
makes 2 gallons
48 pack display box**

OR

**8 oz liquid concentrate
(pictured left)
makes 8 gallons,
24 pack in display box**

Pursell's Christmas Tree Preservative has become a popular item for extra profits during the Christmas tree sales season. Millions of bottles sold! Mark up and sell outright near the cash register, or use the packets or handy 2 oz bottles as a promotional give-away item. Our own specially developed formula helps promote liquid absorption and combines with water molecules to reduce evaporation and promote needle retention. Contents include fiber softeners and essential nutrients and minerals to help maintain a fresher and safer Christmas tree. Natural evergreen fragrance in liquid preservative adds to the holiday experience. Liquid concentrate, UPC labeled, pet safe.

Oregon Forestry Laboratory Christmas Tree Preserver

made in the
USA

Granular tree preserver from Oregon Forestry Lab. **Top Rated and Documented**, by Washington State Univ. Works better than water! Child & Pet Safe. Each packet contains a unique substance that absorbs water and expands into gel-like beads, allowing trees to absorb water back as needed without drying out or sealing. Other ingredients will keep needles on longer and tree moisturized. Suggested retail price \$3.00ea.

Display Case: 144 packets,

Decorating ideas for every season

Add your choice of antlers/arms

Embellish your herd with a variety of foliage, boughs or other treatments for the season or occasion. Antler and tail holes are included on the deer so you can add the treatments or decor you prefer. (boughs not included)

Testimonials

"They are adorably cute and customers pick them out as if they were pets. We have been in the retail tree lot business for 15 years now and have been retailing the reindeer for 4 seasons."

"We bought one combo bin of reindeer just to try them out. We sold out while we were setting up our lot on Wednesday before Thanksgiving. Unbelievable!" (Note: This customer ordered 3 times for a total of 12 bins during the 2011 season.)

"We sold over 1000 Reindeer at our 2 Colorado tree lots in 2010. The reindeer sell themselves and will increase your income tremendously." (NOTE: This particular retail lot sold the small reindeer for \$25 and sold 1000 deer and 1500 trees)

"We did an inventory count of our reindeer and snowmen and I need to order more! They are so darn cute!"

"We love selling these at my lots. In my 28 years in retail trees, I have never seen items go snapped up like these deer and Snowmen. We have the reindeer displayed as a herd and snowmen displayed as a group near the checkout stand. Since they are natural wood, some have their own imperfections and marks which make folks want to adopt them more. While most are sold as an impulse buy, some customers buy another member of the 'family' each season until they have a complete set. They are also inclined to come back to my lot next year to get new ears and tails."

Cinco™ Stands

- ❄️ **No equipment required**
- ❄️ **Easy “Express” installation**
- ❄️ **Proven reliability**
- ❄️ **Accommodates large trees**
- ❄️ **Plentiful water basin**

With decades of proven reliability and features, Cinco™ stands are the premium plastic stand on the market. Made of sturdy plastic with metal hardware (except on table top), Cinco™ stands also feature patented towers which avoid conflicts with low branches, accommodate large tree butts, and provide a plentiful water basin. “Express” stands feature push-button slide bolts for easy installation.

Tennon Stands by Noblett™

The Original quick & easy way to stand Table Tops!

Table Top 12
for 2-4 ft. trees,
12" diameter,
Use with 30mm
(1 1/8") tenons

Medium 14
for 4-5 ft. trees, 14" diameter,
Use with 40mm (1 9/16") tenons

Patented Noblett™ Tennon Stands are a great way to quickly and economically stand trees from table top to about 5 ft. tall. Simply shape the butt of the tree with a tennon cutter and press the butt into the stand for a tight fit. Noblett stands are shaped to hold water, and are available in three sizes. Butts should be shaped to appropriate diameter for the corresponding stand (see details on left).

Pursell Tennon Cutters

- * Specially designed for snug fit with Noblett stands
- * Available in 4 sizes
- * Limited depth to fit stand on first cut
- * Fits any 1/2" chuck
- * Removeable shank, can be fitted to other motors
- * Dual blade for quick, even cutting
- * Easy blade replacement

replacement blades available for tennon cutter

Adaptor for 3/4" keyed shafts allows tenon cutter to attach to motors like the one shown below:

DRILL BITS

ROUND tapered Drill Bits and Chucks
for both 9/16" and 1/2" spikes.
(Bit requires compatible chuck)

Bit Round

Chuck Round

FLAT tapered Drill Bits and Chucks (Refurbished)
for both 9/16" and 1/2" spikes.
(Bit requires compatible chuck)

Bit Flat

Chuck Flat

assembled
in the
USA

Comes assembled with round bit and chuck

Bits and chucks also sold separately (pictured left)

DRILL MACHINE

Drill a Christmas Tree straight the first time with this production lever-action Drill Machine. This machine is a must for all spike stand users. Centering device orients tree for perfect centered drilling with a tapered hole in any baled or unbaled tree. Comes complete with standard 1 H.P. 120 volt motor, one round chuck and one round bit installed and ready for use. Extra bits and chucks sold separately.

HAND DRILL ADAPTOR

Finally, an inexpensive way to drill a few trees for spike stands! Adaptor joins 5/8" bits with a 1/2" shaft to fit with most heavy duty hand power drills. Zinc plated to prevent rust. Item Code BIT ADAPTOR

**DRILL NOT INCLUDED,
BITS AND CHUCK SOLD SEPARATELY.**

Drill Bit Adaptor

Adapter with round chuck

Hand Drill+Adaptor+Chuck+Bit assembled. Requires round chuck (above) to attach bit to 1/2" drill.

Spike display systems allow trees to be displayed for sale (with water bowls) in a permanent configuration and replaced easily as they are sold. Design a custom arrangement to suit the space on your lot using either bolt through grid pins or spike plates. Rebar stands (with the same pin size) can be easily added to the trees as they are sold.

Spike Plates use a 9/16" spike, welded to a 4"x4" 1/4" thick plate with holes on the corners for screws. Mounts easily to wooden planks, pallets, or a multitude of other configurations to display your trees with water bowls or without. Screws not included. 12 pack boxed.

Grid Pin

Grid Pins are 9/16" spikes with a 1/2" threaded shank so that they can be bolted through 3 inches of material, (the thickness of two 2x4's or 2x6's). Boards can be arranged in many ways to provide a permanent display system on your lot where trees can be added. 25 Pack boxed.

Display Arms

Display Arms: Simply snap a tree into the arm and your tree is displayed for sale. The 19 inch arm attaches to a 2x4 or 2x6 and is ready to use. Works great with flat bottom or large nail-on water bowls to keep trees fresh, see page 25. Use the arm over and over, year after year. Display Arms are made from heavy gauge, rustproof plated steel. 25/case.

Use pallets and 2x4 lumber to build a simple display system like the one shown here, including display arms for trees as well as wreaths. Center of display can be used to store extra tree inventory.

Flat bottom bowls work great to keep trees watered with Display Arms, see them next page.

TRU-CUT™ Wood Stands

made in the
USA

The Pursell family has been making wood tree stands for nearly half a century. We are #1 not just because of our prices, but because our quality is the best. Give us a try and see the difference.

ASK FOR TRU-CUT STANDS by name!

For decades, wood stands have been America's best selling Christmas tree stand, and our own **TRU-CUT** brand is the most reliable and sought after in the industry. **TRU-CUT** Wood Stands provide an inexpensive and highly profitable method of displaying Christmas trees on the lot and in the home. Don't fall for cheap imitations—quality counts! If inferior stands are not usable, they cost you money. **TRU-CUT** Wood Stands are recognized as the industry standard, and are used internationally by independent retailers and mass marketers. Stands are made from top-quality western softwoods graded specifically for their intended use. Each piece is uniformly cut, inspected, and stress-tested to help ensure 100% usability. (Bowls and nails sold separately)

THE MOST ECONOMICAL WAY TO STAND TREES!

100% USABILITY, SUPERIOR QUALITY

PRECISION UNIFORM CUT

MADE FROM PINE TO REDUCE SPLITTING

COLOR CODED--EASY SIZE IDENTIFICATION

See our instructional video showing how to efficiently install wood stands and bowls at www.pursellmfg.com

Easy As 1, 2, 3

1. Trim tree butt perpendicularly to trunk
2. Insert primary nail into pre-drilled hole and place in position
3. Turn stand to an "X" position and secure with secondary nails

made in the
USA

Seal Pads

Peel & Stick

For those who want extra assurance! Peel the backing, and apply rubberized seal pad to bottom of any bowl. Available in regular 6" diameter and new larger 8" diameter, both 25 pk. Seal pads can be ordered separately, or pre-applied to your choice of nail-on bowls. To include pre-applied pads on your order, see descriptions and item codes near the bottom of the adjacent table.

PURSELL'S BIGFOOT™

CHRISTMAS TREE STANDS

Shockingly Simple to Install!
just tap and crank... that's it.

Available in 5 different sizes for trees up to 20' tall. No drilling or special tools necessary, easy installation with the tap of a hammer and a crank will stand a tree straight in seconds. Once the stand is installed, simply lift the tree up to a vertical position and place over a water bowl (shown right). Tree is easily adjusted or straightened by bending slightly after installation. See adjacent page for recommended sizes, bowls and accessories. Bigfoot 15 and 20 come with lag bolts for base of tree.

BIGFOOT Attachment hardware: EXTRA Cranks and Bolts

3 sizes of each for sizes 6, 8-10, 12-20

- ❄ **Cranks included**
- ❄ **Fits over water bowls**
- ❄ **Easy to straighten trees**
- ❄ **Durable powder coating**
- ❄ **Great for large trees**
- ❄ **Lifetime Guarantee**

Use lag bolts (sold separately) for lot display instead of cranks as desired. Can be applied with mobile impact drill with socket attachment.

Marathon Flock: The Finest Flock in the World

Marathon™ Flock

Marathon™ Flock has been the gold standard of amazingly realistic snow for decades. Self-adhesive flock, bright white, low dust cellulose. Formulated with more adhesive for superior stick. Repurposed, Recycled and biodegradable ingredients. California State Fire Marshal Flame Retardant registered and approved. Packaged in moisture barrier bags, 25 lbs. each.

- ❄ Superior Adhesive, just add water
- ❄ Builds Quickly, Goes Further
- ❄ Low Dust, High Yield

made in the
USA

Criterion Self-adhesive flock. Our proven Marathon formula with Mica added for sparkle effect. California State Fire Marshal registered and approved. Packaged in moisture barrier bags, 25 lbs. each.

Marathon - MEGA HOLD Flock Same proven Marathon Flock formula with extra bonding adhesive added to this flock creating an extreme hold on the needles of greens with waxy surfaces. This works great on tree species that have proven difficult to flock such as the increasingly popular Nordmann Fir. Marathon-Mega Hold Flock creates a slightly less fluffy build that allows for the water activated adhesive to reach deeply into the needles, resulting in a firmer hold on the waxy needles. California State Fire Marshal registered and approved, packaged in moisture barrier bags. Sold in 25lb. bags.

Marathon - LIVE Flock™ Self-adhesive flock for living organisms is specially formulated not to harm plants or burn foliage. Does not include Flame Retardant, uses our low dust bright white cellulose and extra adhesive. Moisture barrier 25 lb. bag.

Better Ingredients, Better Flock. We Guarantee it!

1. Low-Dust cellulose is made by extracting the fines leaving longer fibers for better build and less waste expect more flocked trees per bag.
2. Ultra-bright white. We start with an already high quality pulp and add brighteners to enhance the even whitest of whites. Compare with other brands and you will see the difference.
3. All of our flock blends are made from renewable natural products, often repurposed, recycled, and biodegradable.

Watch for our stunning new Marathon Flock bag design, coming soon in 2024. Extra durable, moisture barrier, slip proof, beautiful.

Flock & Snow Effects

Opalina Pearlescent Flakes

Add flecks of shimmer and sparkle as these iridescent flakes pick up the colors of the spectrum just like fresh snow glistens in sunlight. Apply to surface after flocking. In 1 lb or 5 lb bags.

Mica Flakes

Make any snowy surface gleam like fresh morning frost with naturally mined white Mica Flakes. Mica Flakes give an ice crystal effect like a real winter scene. For best results, sprinkle over wet flock to glue in. May be sprinkled on green trees or other decor as well, or mixed into the flock before application. 10 lb lined box.

Crystalina

Reflective Pearlescent super-fine flakes

Flock Color Tints

Add a splash of vibrant pastel color to your flocked trees with Flock Tints. These vibrant powdered color pigments can be mixed with our brand name flocks at a rate of your choosing for lesser or greater color intensity. Recommended blends are shown, one canister of tint to 25lbs of flock ratio. Full tint color is displayed beside the blended sample.

Traditional Red

Sunny Yellow

Turquoise

Corona Magenta

Deep Blue

Ultra Violet

Blaze Orange

Electric Blue

Bright Green

Strong Green

Blend 1 lb canister with 25 lbs of flock to get these pastel colors, or blend to your own liking for more or less color intensity

Glitter

Brilliantly colored reflective glitters create a dramatic effect on a flocked tree, greenery and many other design applications. Available in Gold, Silver, Red, Blue, Green, and new pearlescent **CRYSTALINA**. Our glitter offers an ultra-fine hexagonal cut to yield vastly more coverage on your trees and create thousands of reflective twinkling surfaces and colors on your designer trees. For best results, sprinkle glitter over a freshly flocked tree to create a firm bond. Sold in 1 lb bags.

SNOW FORCE™

The Flock Machine you've always wanted!

Don't fall for cheap imitations. Ask for SnowForce by name

- ❄️ **Powerful two-stage blower motor, maximum flow**
- ❄️ **Cut your flock time by up to 75%!**
- ❄️ **Fully independently adjustable: flock, air, and water**
- ❄️ **Less expensive replacement parts (if ever needed)**
- ❄️ **Even flow without pulsing or globs**
- ❄️ **User mobility: 17+ ft. hoses & cords**
- ❄️ **Also available in 220v**

made in the
USA

Over
THREE TIMES
the output of other
"high capacity"
machines

"In over 35 years of flocking--by far the best machine I have ever used." -Robert Heath, Heath Farms, WI

We've brought over 45 years of flocking knowledge together with related industry engineering to design and produce the most powerful and dynamic flock machine on the market--for less cost. We call it the "SNOW FORCE™" because the unmatched power is its defining characteristic. No blower motor in the industry even compares, much less offers the precision, flexibility or durability of Pursell's SNOW FORCE™. Our design team worked hard to include all the features and control you've always wanted, to go along with the durability you deserve and the production efficiency to get the job done promptly. See more details about these design features below and on the adjacent page.

**see the Snow Force in action
with features demonstrated
at pursellmfg.com**

Comes complete with Snow Force machine and blower, agitator motor and system, Pursell's Blizzard™ Flock Gun, 17ft. material hose, 18 ft. water hose, 17ft. remote motor switch (on gun), attached lid, dolly style handle and wheels. Holds 25+ lbs of flock. 120v A/C. 20" diameter by 39" tall. **\$2,450.00**
Also available in 220V, call for price.

A DESIGN UNLIKE ANY OTHER FLOCK MACHINE

Compare the SNOW FORCE to the high capacity "Cadillac" blower systems. The SNOW FORCE blows those machines away with more power, lower cost components and superior design features. Replacement motor cost is less than 1/3rd (if necessary)

BLIZZARD FLOCK GUN

Low voltage remote toggle blower switch mounted directly on the gun puts control of the industry's most powerful blower motor at your finger tips. 17+ foot cords and hoses mean you can place your machine where you want it, and reach the tops of those big trees.

- Material flows straight through gun - no corners
- Water valve adjusts volume, includes quick-connect hose fitting
- Twist-lock dual side-fan converging angle water nozzles
- Ergonomic gun handle, no triggers or grips to fatigue hands
- Lightweight aluminum construction with brass fittings
- Easy to remove and clean
- Sold separately, available retrofit to other machines

Remote switch NOT included: **\$235.00**

With remote switch: **\$366.00**

(see page 31 for details and more parts)

Snow Effects

SnowScape™

Create stunning winter scenes in film grade quality! Bring the magic of winter snow to indoor or outdoor scenes of any size. SnowScape™ is a non-adhesive film grade snow product specially designed for the movie and TV industry. It is made in the USA from non-toxic, repurposed fibers that is easy to apply and is readily cleaned up with a vacuum after use. A single SnowScape™ 22 lb bag will cover about 80 square feet at 1" deep. **SnowScape™ \$49.50**

Also available as California State Fire Marshal certified Flame Retardant Chemical for crowded or public venues. Provides similar coverage to 22lb bag above. **30lb lined box SnowScape+FR \$98.75**

Snow Effects Craft

Provide your customers with a way to create a stunning winter SnowScape at home or any smaller venue—window displays, villages, or centerpieces. Sold in a colorful display box with .75 lbs of product in 12 individual bags, each about 8x16" in size. It is the same amazing SnowScape™ product used in movies, but with an added sparkle. Made from biodegradable, non-toxic, repurposed cellulose material in bags sized for home or craft use. Sold in tear away display box, 12 bags per box.

USA

Available in 5 gallon pails or 1 gallon jugs
5-6 8' trees treated per gallon (varies with size)

- ❄ **Spray on protection for trees, wreaths, greens, centerpieces, straw, etc.**
- ❄ **Water Based--Easy Clean-up**
- ❄ **Non-Toxic, child/pet safe formula**
- ❄ **Will not stain**
- ❄ **Guaranteed**

Don't forget certification tags!
See page 40 for more details and pricing

Make certain that your customers' holidays are safe!

Tree Safe Flame Retardant is truly a **SUPERIOR PRODUCT**. This high viscosity polymer formula not only goes farther than other brands, it **WILL NOT DEHYDRATE TREES OR GREENS** like salt-based retardants. **APPLICABLE TO INDOOR CHRISTMAS TREES, GREENS AND WREATHS**. Ordinary spray equipment applies a fine mist to your greenery, drying to a perfectly clear finish with no unsightly globs or residue. Tree Safe is odorless, non-toxic, child/ pet safe and water soluble for easy cleanup. Tree Safe meets national standards for Christmas Tree Flame Retardant and is registered for use by the California State Fire Marshall, California code: C-24101 **LOOK FORWARD TO 30-50% GREATER COVERAGE** than other brands! It will keep from season to season. Don't forget to order Flame Retardant Tags for your trees or wreaths too.

Netting

COMPRESS AND PACKAGE YOUR TREES FOR EASY HANDLING

Customer Convenience

- Increase Profits
- Reduce Labor
- Easy to Use

TNI knitted red and green netting™

1" mesh

TNI Netting is packaged for shipment in bales of 3 cartridges each. A single bale of 23" TNI netting would be 3 cartridges

Provide your customers with packaged Christmas trees for easy handling. A netted Christmas tree not only makes transporting simple, but also makes it easy to bring the tree through doorways without damaging the tree or house. It is like putting handles on the tree! The Christmas tree baling system provides an economical way to increase customer convenience and keep them coming back year after year. When you see our trademarked Red and Green™ TNI knitted netting you can be assured that it is the good stuff.. Internationally standardized and ISO certified #9001-2008.

TM

See our instructional video showing how to net trees at www.pursellmfg.com

TNI Advantage

- ❄️ Easier on trees
- ❄️ Lays flat, easy disposal
- ❄️ Easier on hands
- ❄️ More compact 1" mesh
- ❄️ Looks great on trees
- ❄️ Recycles at level 4

TNI netting priced and sold by the 3 pack

Knitted TNI netting

Knitted vs. Extruded: What's the difference?

Knitted netting is looped together in small links, making a strong fiber offering a soft feel in 1" mesh, which easily compacts for shipping and disposal or recycling at level 4, available in TNI's Red and Green striped. It is softer on hands, trees, and compresses for easier disposal. Strong enough to pick up an entire tree with out breaking.

Extruded netting is formed from stiffer continuous monofilament fibers, which are "welded" together every 2 inches (2" mesh), allowing for great compression and easy transport of the tree.

Extruded netting

Netting

Extruded Netting

Pursell extruded opaque netting

White 22" x 5740' HDPE roll 1/2" mesh	roll	\$431 (.075/ft)

Balers

made in the
USA

BALERS are available in 3 sizes, corresponding to the sizes of netting, 20", 23" and 26". Recommended tree sizes listed in the table below are general, for fuller trees use a larger size. Balers are shipped unassembled to save you money on shipping bulky oversized boxes. Some minor assembly required.

(netting sold separately)

How It Works:

1. Start the tree base through the baler funnel,
2. Grip netting and tree trunk together,
3. Pull the tree through baler to apply netting,
4. Twist tree, then trim netting to desired length.

See our instructional video showing how to net trees at www.pursellmfg.com

HOW TO MEASURE YOUR BALER
Baler size may be determined by color (see adjacent colors and sizes), or by measuring diagonally across the inside from corner to corner, (see photo of 23" baler, left).

Our new baler design will **save you money on shipping!** Until now balers would cost nearly **3 times normal ground shipping rates** because of their bulky design and large box. But with our new compact design, ground shipping costs have been cut, and we pass those savings on to you. Minimal assembly required (13 bolts).

Baler parts now available:

retainer rings & spring clips, pricing below

Size	tree size	Price
18" Baler	4-5' trees	call
20" Baler	5-7' trees	399.00

Wreath Rings & Clamps

We proudly offer Mitchell Wreath Rings™, and the Mitchell “No-Hammer”™ Clamp Machine and stand. Discover why many customers have said, “I tried rings that look like yours, but there is something different about Mitchell rings. I don’t know what it is, but it sure makes a difference.”

Experience the Mitchell difference - the result of 6 decades of experience in the wreath ring manufacturing business. Mitchell’s rings and specialty shaped clamps are unique for three reasons:

- 1) Specially selected high quality wire.
- 2) Unique custom drawn wire and steel formulation for clips to prevent spring back after clamping.
- 3) A patented production process to assure strong welds between these two distinctly different kinds of steel.

MITCHELL
METAL PRODUCTS
 EXCELLENCE FROM START TO FINISH

Wreath rings are available in round: 8”, 10”, 12”, 14”, 16”, 18”, 20”, 24”, 30”, 36”, & 48”.
 (NOTE: actual wreaths will be LARGER than rings. For example, a 12” ring may produce a 24” wreath, depending on foliage used.)

made in the

3"x5.75" poly tag with elastic tie and consecutive numbers. Care tips and real tree info on back

Manage your inventory and track sales with consecutively numbered perforated tags. Sales Tags are size seven (2 7/8"x5 3/4"--large and visible) with reinforced holes, wire ties, and 100 per pack. Two part sales tags include tree care tips on the back, along with customer information blanks. Our most popular tags (above) are all made with a weatherproof material that won't deteriorate with moisture like other tags. The Flame Retardant tag and Blank tag are made with cardstock (below).

Tree Shaped Tags

Tree shaped tags are made from durable poly plastic with a tuck through attachment. Highly visible with vibrant Christmas colors, tear off base for pricing and inventory management. Species specific tags include unique properties of each tree species. Real Tree marketing information and care tips included on back.

Shakee with
tree holder
(sold separately)

“Li'l Shakee” Tree Shaker

Make your trees “dance” for your customers as you help eliminate needle drop, one of the most common complaints about real trees. This electric 3/4 h.p. motor is field proven and comes with a 2 year warranty, along with standard foot switch and an optional tree holder. Shipping weight: 115 lbs. Items: SHAKEE, **\$1,825.00** SHAKEE-HOLDER, **\$112.00**

Hand Tally Counter

The answer to your inventory woes! Count and inventory your trees or virtually anything else as they go by simply and easily with this durable hand-held counter. Sturdy steel case with chrome cover, features a four figure display, push button actuator for counting, reset knob, and finger ring for ease of use. Boxed individually. Item Code: TALLY, **\$14.00 ea.**

Grower Supplies

Ultraviolet rays cause a yellowing process in some species of pines. This spells disaster for Christmas tree growers, since consumers seek a lush green tree. Years of research have gone into formulating O'Leary's Deluxe II Organic Tree Coating to enable you to take your trees to market with resilient deep green color. Deluxe II tree coating recolors the tree and blocks ultraviolet rays that cause yellowing. The color is harmless to trees and safe for the user. Once it is applied, it presents no hazards to children or pets and will not slow future growth. Soap and water cleanup. Dilute in water at up to a 1:30 ratio. One gallon of colorant, after dilution, will treat up to about 60 trees, depending on application rate. Comes in a case of two 2.5 gallon jugs: **\$150.00 (2 pack)** Item Code: **Tree Colorant 2.5 gallon**
